Thank you for undertaking the ATIPPPA review. Based on my experience, I recommend:

- Enforce timelines with real penalties for unjustified extensions, and publish per-body compliance dashboards (super important!)
- Strengthen severing and the duty to assist via mandatory training, and require release packages to include section-by-section justifications.
- Boost oversight by giving OIPC order-making powers with enforceability and sanctions for non-compliance, and expedite appeals/mediation.
- Expand proactive disclosure (contracts, meeting minutes, statistics, datasets) to reduce ATIPP volume and delays.

Thanks
Nadine
